F300 pro

pro Series

MACHINE DRY WEIGHT: 1,731 LBS.
WORKING GRADE: UP TO 60° ALL DIRECTIONS
SPEED: 5 MPH
ENGINE: YANMAR DIESEL 25HP
NO. CYLINDERS: 3
ENGINE COOLING: LIQUID
FUEL TANK CAPACITY: 5.5 GAL.
CUTTING WIDTH: 40 INCHES
CUTTING CAPACITY: 2 INCHES
REVERSIBLE RADIATOR FAN
ON-BOARD BATTERY CHARGER
500 FT REMOTE RANGE

The F300 PRO is a compact, industrial remote-controlled slope mower with steep slope capabilities. Its 25hp Yanmar diesel engine provides ultimate power for aggressive mulching. This machine is perfect for:

- Commercial Properties
- Golf Courses
- Municipal Parks
- Pipeline Maintenance
- Ponds & Waterways
- Steep inclines up to 60°

LV300 pro

MACHINE DRY WEIGHT: 1,720 LBS. {BODY ONLY}
WORKING GRADIENT: 60 ° ALL DIRECTIONS
SPEED: 5 MPH
ENGINE: YANMAR DIESEL 25HP
NO. CYLINDERS: 3
ENGINE COOLING: LIQUID
FUEL TANK CAPACITY: 5.5 GAL.
CUTTING WIDTH: 45 INCHES
TRACK EXTENSION: +/- 16 INCHES
HYDRAULIC SIDE SHIFT: +/- 16 INCHES
CUTTING CAPACITY: 2 INCHES
REVERSIBLE RADIATOR FAN
ON-BOARD BATTERY CHARGER
500 FT REMOTE RANGE

The LV300 Pro offers the same 25 hp Yanmar diesel engine as the F300 PRO but with added hydraulic capabilities. The attachment plate shifts four-ways. The tracks extend for added steep slope stability. LV300 PRO applications include:

- Solar Farms
- Landfill Clearing
- Water Sheds
- Roadsides
- Processing Facilities
- Areas up to 60°

LV600 PLUS

MACHINE DRY WEIGHT: 2,850 LBS. {BODY ONLY}
WORKING GRADIENT: UP TO 60° ALL DIRECTIONS
SPEED: 5 MPH
ENGINE: KOHLER DIESEL 56 HP
NO. CYLINDERS: 3
ENGINE COOLING: LIQUID
FUEL TANK CAPACITY: 8.5 GAL.
CUTTING WIDTH: 51 INCHES
TRACK EXTENSION: +/- 16 INCHES
HYDRAULIC SIDE SHIFT: +/- 16 INCHES
CUTTING CAPACITY: 3-6 INCHES
REVERSIBLE RADIATOR FAN
ON-BOARD BATTERY CHARGER
500 FT REMOTE RANGE

STAGE V *ready*

GREEN CLIMBER ATTACHMENTS

- Two-way bucket
- 70 inch finish mower
- Sprayer
- Trencher
- Forestry flail
- Carbide tooth forestry head
- Stump grinder
- Post mower
- Tiller

The LV600 is the most popular of the Green Climbers. This machine offers a 56Hp Tier IV Final, Kohler diesel engine. Like the LV300 PRO, the LV600 offers extendable tracks and a side-shifting hydraulic head. The hydraulic system uses a quick-connect coupling that allows users to switch out attachments within minutes.

A Clean-fix reversible fan keeps the radiator free of debris. The fan will automatically blow back every 7 minutes or can be manually initiated from the remote. This keeps the machine clean and prevents overheating.

The LV600 offers extreme cutting from up to 3 inches with the standard flail, up to 6 inches with a forestry style head. You will find these machines on the side of roadways throughout the world. Their top applications include:

- Highway mowing
- Fire breaks
- Refinery maintenance
- Right-of-way clearing
- Pipeline mowing

LV800

MACHINE DRY WEIGHT: 3,750 LBS. {BODLY ONLY}

WORKING GRADIENT: 60 ° ALL DIRECTIONS

SPEED: 5.5 MPH

ENGINE: KOHLER DIESEL 75 HP

NO. CYLINDERS: 4

ENGINE COOLING: LIQUID

FUEL TANK CAPACITY: 14 GAL.

CUTTING WIDTH: 61 INCHES

TRACK EXTENSION: +/- 22 INCHES

HYDRAULIC SIDE SHIFT: +/- 22 INCHES

CUTTING CAPACITY: 3-12 INCHES

REVERSIBLE RADIATOR FAN

ON-BOARD BATTERY CHARGER

500 FT REMOTE RANGE

Green Climber
STAGE V *ready*

EQUIPPED FOR FORESTRY

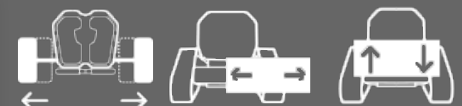

- Forestry head tackles up to 8" dia. brush & trees
- Extendable tracks for steep terrain stability
- Steel protection package to prevent body damage
- Remote recovery winch to pull & recover equipment

The LV800 is the forestry equipped big brother of the LV600. This machine is outfitted with a tier IV final 75 hp diesel engine. At 1/3 the weight of a standard skidsteer, this compact monster offers equal power, but with safety features greater than a typical tractor.

Like other Green Climbers, the LV800 offers extendable tracks, a clean-fix reversible fan, a quick connect coupling system and side shifting attachment plate. Unique to the LV800 is its 61" forestry head, capable of cutting and mulching up to 8" diameter vegetation!

Added safety features include remote recovery winch and forestry protection package. Stop taking your skidsteer on steep terrain. The LV800's 60 degree working gradient makes it perfect for:

- Facility management
- Forestry applications
- Trail cutting
- Fire breaks
- Right-of-way clearing
- Land clearing

F - 23

MACHINE DRY WEIGHT: 1,036 LBS.

WORKING GRADIENT: 60 ° ALL DIRECTIONS

SPEED: 4-6 MPH

**ENGINE: KAWASAKI FS730V EFI AIR
COOLED - V TWIN**

FUEL: PETROL

ENGINE COOLING: LIQUID

FUEL TANK CAPACITY: 5.6 GAL.

TRACKS: STATIC

CUTTING WIDTH: 31.5 INCHES

CUTTING HEIGHT: 5 ADJUSTABLE LEVELS

CLEANFIX REVERSIBLE RADIATOR FAN

ON-BOARD BATTERY CHARGER

500 FT REMOTE RANGE

KAWASAKI GASONLINE ENGINES

ROTARY CUT THAT PACKS A PUNCH

- Mower is located underneath the machine
- Equipped with two tough swinging MOB Delta Blades
- Capable of bi-directional cutting
- Towing hitch to pull & recover equipment

The F-23 is the first Green Climber of it's kind. It is powered by the reliable Kawasaki net 25Hp Gasoline Engine. Combined with the MDB Srl patented technology, this machine can operate all day on steep terrain without any engine complications. 60 degrees, heavy grass, no problem.

The F-23 is the smallest Green Climber weighing in at only 1,036 lbs. With a height of just under 30 inches, this machine is perfect for low clearance areas. such as solar farms. It's finish mower mowing style leaves a clean cut for areas needing a little TLC.

The remote control operates from up to 500 ft away, giving the user a birds eye view of their mowing terrain.

Capable of cutting up to 2" diameter brush & grass, this light weight, easy to transport slope mower is perfect for:

- Golf Courses
- Solar Farms
- Parks & Trails
- Private Residences
- Landscape Contractors
- Waterway Maintenance

MP-100 PLUS

MACHINE DRY WEIGHT: 2,161 LBS.

NO. CYLINDERS: 3

ENGINE COOLING: LIQUID

FUEL TANK CAPACITY: 5.8 GAL.

TRACKS: STATIC

LIFTING WEIGHT: 950 LBS WITH PACKAGING

LIGHTING HEIGHT: 84 INCHES

REVERSIBLE RADIATOR FAN

ON-BOARD BATTERY CHARGER

500 FT REMOTE RANGE

Green Climber
STAGE V **ready**

EQUIPPED FOR TIGHT SPACES

- Comes standard with Bucket and Forks
- Multiple attachments make the MP-100 Plus customizable to any job
- Ride-on and remote controlling options available
- Additional counter weight increases lifting capabilities

The MP-100 PLUS is the final piece to the Green Climber fleet. This machine is outfitted with a tier IV final 22 hp diesel engine. Equipped with a hydraulic circuit, which ensures the movements of any attachments can be carried out without compromising on speed or power.

The MP-100 PLUS is a compact and powerful vehicle. The low weight makes for easy transportation and use. The operator can control the machine from any position, allowing for a better view of the work zone. This lessens the chances of accidents and errors.

Capable of multiple functions the MP-100 PLUS will tackle steep terrain better than any skid steer. The machine's multiple attachments and 20 degree working gradient make it perfect for:

- Leveling
- Lifting
- Transporting Materials
- Digging
- Demolishing
- Brushing
- Drilling
