Leach Alpha™ III Rear Loader

THE STRONGEST MID-RANGE REAR LOADER

Every single day, Leach™ rear loaders prove just how reliable they are. They're built tough to handle even the most challenging routes. Leach™ is all about taking pride in the top-notch quality and productivity of every unit.

Every available option, every meticulously refined design, and every feature incorporated by Leach™ share a common goal: optimizing fleet efficiency while keeping maintenance costs at a minimum. Each Leach™ rear loader is meticulously crafted to provide the best product on the market with the lowest total cost of ownership.

The Leach Alpha™ III stands out as the most formidable mid-range rear loader. Featuring a standard 3.0 yd³ hopper, with the load sill positioned 5" below the chassis frame, and a rapid packing cycle time, it's no surprise that the Leach Alpha™ III has earned its reputation as a favorite.

Laying the foundations for a truly exceptional product.

LEACH™ INNOVATIONS

With a strong emphasis on innovation, Leach's engineering team has crafted a comprehensive range of customizable options to cater to even the most stringent customer requirements. We are poised and eager to embrace emerging industry trends and fulfill evolving customer demands. This perpetual cycle of innovation positions Leach™ as the forefront leader in side loader solutions across North America.

WEIGHT DISTRIBUTION

Over years of innovation, Leach™ trucks prioritize ideal weight distribution in all models. Our ongoing objective is to achieve the perfect material balance, ensuring models collect more waste while maintaining the highest legal payload.

ENVIROLINK™ HAS LAID THE FOUNDATIONS FOR A BRAND-NEW ERA IN TRUCK INTELLIGENCE.

An improved multiplex network and analog system, cameras and monitors, scales, diagnostic tools, safety interlocks, alerts, GPS tracking, and more are now packaged in a more precise, reliable, and efficient Smart Collection Package.

Ejector cylinder angled upward away from debris

14 yd³ to 32 yd³ body sizes available

Single piece body side sheet construction

Multiple commercial collection configurations available

Low sill height

Variety of lighting packages available with protective guards

Diamond Force compaction design

Large 3.0 yd³ hopper

DIAMOND FORCE COMPACTION

Our Diamond Force Compaction design evenly distributes trash, minimizing voids in the payload for a compaction rating of at least 900 lbs per cubic yard*.

CHROMIUM SLIDE SHOES

Slide shoes with Chromium carbide components operate in upper and lower rails, ensuring superior durability over AR450. Greaseable pins and accessible lubrication points facilitate easy maintenance for extended service life.

ANGLED EJECTOR CYLINDER

The telescopic ejector cylinder is installed at an upward angle—keeping it away from debris, and directing compaction forces away from the body floor and towards its front mount location.

THICKEST BODY FLOOR

At 5/16" in the center and 1/4" on each side, Leach™ units boast the thickest standard floor in the industry.

LEACH™ TROUGH

Spanning the full body length, the distinctive Leach™ trough design, forms a built-in sump capable of holding up to 300 gallons of liquid. It also enhances stability with a lower center of gravity and improved weight distribution.

SMART CONTROL LOCATION

Unlike typical designs exposed to elements, Leach's Alpha™ III rear loader houses controls inside the body above the floor, shielded from dirt and debris.
